

Shorebirds: The Birds, the Hunters, the Decoys, 1991, 144 pages, John M. Levinson, Somers G. Headley, 0870334247, 9780870334245, Cornell Maritime Press, 1991

With both novice and experienced decoy collectors in mind, the authors have created a thorough study of shorebirds and the decoys used to hunt them. The life cycles of the frequently hunted birds are described; matchless color illustrations by Robert Verity Clem depict each species in its usual habitat. There is a discussion of the rise and fall of shorebird hunting, the places the birds were hunted, and the kinds of decoys used. Lastly the book treats the present-day legacy of shorebird hunting: the amazing variety of decoys, fashioned by an unknown number of carver-artists. Because shorebird hunting ended in the early 1900s, many shorebird decoys are quite rare and collectible. Beautiful color photographs of more than two hundred decoys highlight this carefully documented book.
